

Get to know the **Magical Yet** and the **Curious Why**. **Yet** will remind you to keep believing, dreaming, leaping! **Why** is there on those days when you think there’s nothing left to be explored—those days when you’re bored. Befriend these two creatures and there’s nothing you can’t do!

### Discover how good you can get. Look back with the Magical Yet!

Think back on something you thought was impossible. Was it riding a bike? Spinning on one foot? Rubbing you’re belly and patting your head at the same time? List things that once felt impossible that you can now do. Use this list to remember with **Yet** you will continue to grow!

### Growth mindset is curious and magical!

Fold a sheet of paper in half. On one half write, “Something I can’t do YET is...” Write or draw what that thing is, and then write or draw a step you can take to learn how to do it. On the other half write, “WHY I’ll never be bored is...” Write or draw something you’re curious about, and then write or draw a step you can take to learn more about it.

### The curious five Ws (and H)

**Why** isn’t the only one who can help you cure boredom. There’s also **Who**, **Where**, **What**, **When**, and **How**! Find one thing, subject, or place that you’re curious about, then ask yourself the five W’s. Maybe it’s, *How is a book made?* Or, *Where is Madagascar?* Or, *Why are bananas yellow?* Ask a friend to help you discover the answers.

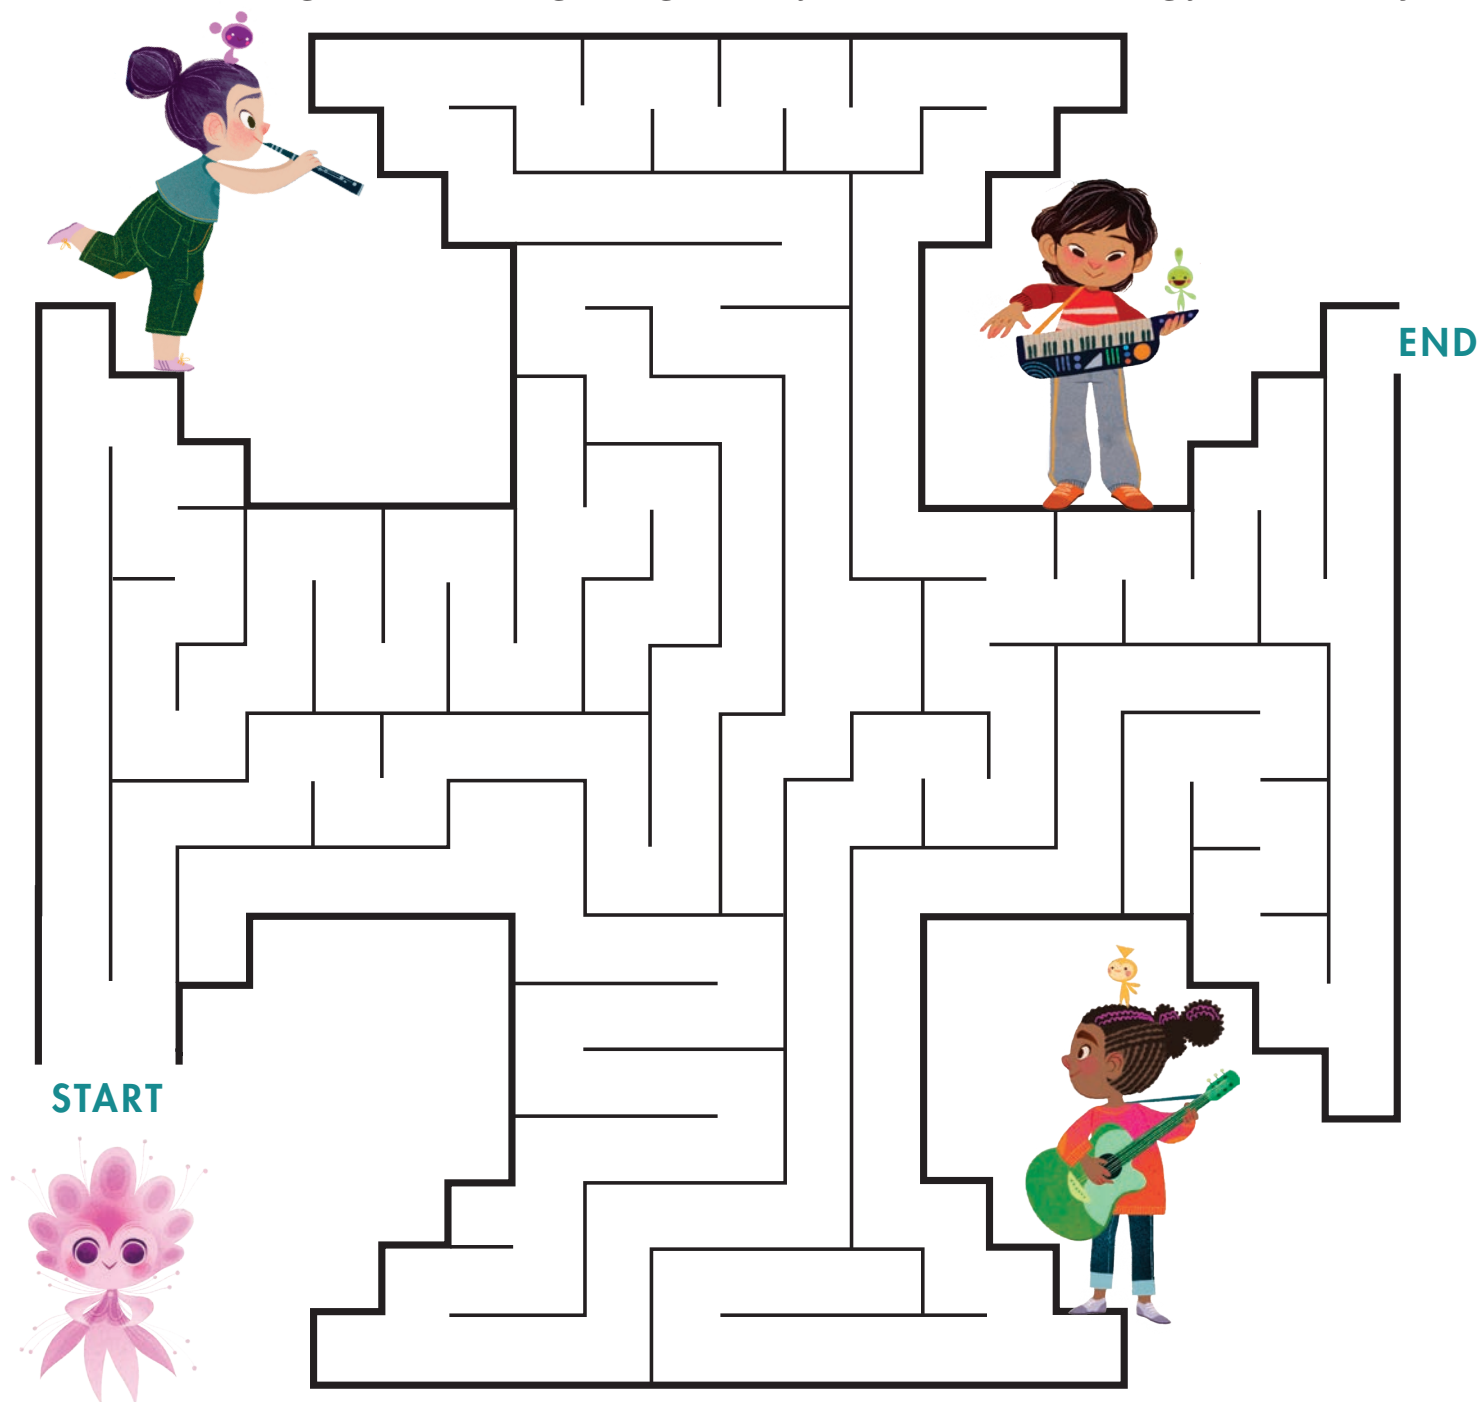

### Draw a friend for Yet and Why

**Yet** and **Why** are pretty great. Did you notice **Yet’s** big smile. Did you see **Why’s** flower antennae? Create and draw a friend to join this curious duo. What colors will you use? What magical power will your character have?

Travel with Yet through this maze and grow together as you discover another thing you can accomplish!

The **Curious Why** introduces us to inspiring ideas. See if you can find some of them in this word search.
